

## Message from CEO

CEO Katsuyoshi Eguchi

Our main business used to be the steel reinforcing which is considered as the most important part in the building industry for a long time. However, our sales results seriously got damages with the financial crisis by Lehman Brothers and we were at a loss to recover the company administration. The other companies left this field due to less working and sales. Regardless of in this situation, we recognized that the amount of handling was kept, not down. Then I thought this is a great result because we contributed all requests from customers one by one with our strong mind of "Excellent Service". We also never forget the mind "Always Improve, Always Challenge" In September 2009, we started the solar power generation business. It has been going well.

I also appreciate that many customers introduced our company to the others. 99% of our sales results are coming from the repeating or introduced customers. We never do door to door sales or similar without any appointments.

We are sure to be able to open new business fields with our strong mind as we did in 2009 at the time of "the financial crisis by Lehman Brothers". We never stop and always do our best.

## Corporate Profile

Company Name	EGUCHI HOLDINGS CO., LTD.
CEO	Katsuyoshi Eguchi
